- Creative Valentine's Day
- Christmas wishes

Art for relaxation and creativity

- Art Therapy: Colors of the Soul
- Creative Relaxation
- Colors of Inspiration
- Journey Within Through Art

ABOUT ME

I am Anna, an artist who sees art as a path to self-expression and inner harmony. My greatest inspiration lies in helping people discover their creative potential and find joy in the process of creating.

I create a space where anyone can feel like an artist, regardless of their experience or skills. Through my workshops, I share not only painting techniques but also inspiration, encouraging participants to let go of the fear of mistakes and find freedom in self-expression through art.

For me, it's important that people leave my sessions not only with a finished painting but with the confidence that they are capable of much more than they imagined. Art is a journey that begins with the first brushstroke, and I am honored to be a guide on this path.

I offer a variety of art workshops tailored to your needs. Together, we can create a painting on any theme that resonates with your team, fostering connection and collaboration. Whether it's a playful creative session or a meaningful piece reflecting your values, the experience is designed to inspire and unite. Let's make art that brings people together!

We can also decorate figurines, such as adorable fancy bears, or select any other shapes to match the theme of your event. This customizable activity adds a unique and creative touch, making the workshop a perfect fit for your celebration or team-building experience.
